OKLAHOMA SENATE ADOPTS BILL FOR HEALTH BOARD.

APPROPRIATION FOR DEPARTMENT BUDGET

State University and A. & M. Presidents With one Active Doctor Are to be Membership.

Guthrie, Ok., March 19.—The senate today finally passed the bill by Senator George O. Johnson, establishing a State Board of Health, which is to be composed of the president of the State University, the president of the A. & M. College and an active physician without reference to school of medicine. The physician of the board is also State Superintendent and Health Officer, and receives a salary of \$1,500 per year. Members of the board receive \$5 per day and expenses while engaged in health work.

The bill extends the organization to counties, townships and to cities, but in a sense all are subservient to the State organization, and their quarantines must conform to the State Board's. It is made mandatory for inferior health officers to report vital statistics to the State Superintendent. The bill appropriates \$10,000 for salaries and expenses of the Health Department.

The senate recommended for passage the bill by Senators Stewart and Conn, establishing ferries, and for the regulation of the business. Persons may be licensed to conduct ferries by paying to the counties a fee of \$10.

Final passage was obtained upon the house bill by Mr. Ellis and Mr. Tillotson defining the duties of the State Commissioner of Charities and Corrections. The bill closely follows the Constitution, treating of the office in detail. An assistant commissioner of charities is allowed at the rate of \$1,500 per annum.

Senator Stewart of Antlers, secured consent for his bills, authorizing the establishment of an industrial school for girls and the establishment of an Eastern Oklahoma Insane asylum, to receive consideration by the senate Monday afternoon at 2 o'clock.

The house spent today considering the proposed fish and game law, which contains features of all the bills on those subjects which have been introduced. It adopted the provision making the open season for quail from Dec. 10 to Jan. 10.

Some of the farmer members were in favor of prohibiting the killing of quail for a number of years because, they explained, quail consume boll weevils and other insects. The killing of pheasants and prairie chickens is prohibited for seven years. All night hunting is prohibited. It is required that each hunter, resident or non-resident, shall secure license from the county clerk before his hunting is legal. The sale of game is also prohibited and the appearance of game on a hotel bill of fare is taken as prima facie evidence that the proprietor of the place has game for sale.

Among the new bills in the house today were: By Mr. Hendrickson, for the collection of debts or judgments by garnishment proceedings; by Mr. Earley, giving the consent of the State for the acquisition by the United States government sites for postoffices, federal buildings and arsenals; by Mr. Abbott, authorizing the organization of mutual fire insurance companies.

BABY'S DEATH MAY BRING HIM.

Henry Starr Said to Seek Conference With Oklahoma Sheriff.

Bartlesville, Ok., March 19.—Henry Starr, the former outlaw leader now in hiding in the Osage country west of here, has been making overtures looking to a conference with Washington county officers for the past twenty-four hours. His baby, six months old, died at the Starr home in Dewey, three miles north of here, last night, and word was immediately carried to Starr by one of his friends in this city. Since that time he has been trying to make arrangements with the sheriff of this county, whereby he can go to Dewey and see the body of his dead

child and return unmolested to the Osage country.

Starr's family consisted of his wife and two children, and he was very fond of the baby which died. It is expected that a desire to see his dead child will do more to bring him in than all of the posses now searching for him.

"I am expecting word of an opportunity to meet Starr at almost any minute," admitted Sheriff Jordan, this afternoon. "Friends of his here have communicated with him several times during past twenty-four hours, and I believe I will have a chance to talk to him."

Another officer of the county who has lived in Bartlesville for twenty-five years said tonight that he knew the whereabouts of Starr and that he was trying to arrange for a conference.

"Of course," said the officer, "no attempt will be made at this conference to arrest Starr. We will go unarmed, merely taking Starr's word that no injury will be done us. I think he has begun to realize the seriousness of his difficulty."

Starr's latest statement, according to friends here, is that he was not in Tyro on the day the bank was robbed, and that he can prove he was twenty-five miles away, engaged in a horse trade at the hour the robbery occurred. He has informed his friends who have been in communication with him that he has three reputable citizens who will testify that they saw him within a few minutes of the robbery, fully twenty miles from Tyro.

The conference may not result in the surrender of Starr, but it may be the beginning of overtures which will lead to the restoration of the money in case prosecution is dropped.

City Marshal Brown of Dewey, said tonight that Starr would be arrested if he came there to attend the funeral of his baby.

Would Sell School Land

Guthrie, Ok.—March 19.—The present state legislature will attempt to dispose of the 20 million dollars' worth of school and other public lands received from the federal government. Although the objection has been offered that there should be no haste in the matter, yet the school land lessees have sent a lobby to Guthrie to prevent delay. The lessees ask that the land be sold immediately. In some parts of the state farmers have organized to oppose the sale of the school lands and are sending petitions to the legislature.

Senator Henry S. Johnston of Perry has introduced in the senate a bill which has the approval of the lessees, while Senator Roy V. Stafford has offered a bill that is not favored by the lessees. The Johnston bill permits the acquisition of the lands by the lessee occupants in fee simple at the end of three years. The Stafford bill contemplates that the title to the school lands shall never pass from the state. The purchaser merely gives to the state a non-maturing note at 4 per cent annually, secured by a first mortgage on the land. The land becomes subject to taxation. His plan is similar to what is known as the Iowa swamp lands act.

The part taken by the school land lessees in politics is looked upon as perhaps the undesirable feature of the controversy over whether or not the lands should be sold. There are about 10,000 lessees, of whom 65 per cent are Democrats or Populists. In every way they control possibly 40,000 votes. The government made a deal with the lessees whereby the lessees voted for Bird S. McGuire for Republican delegate to Congress, and it was the vote of the lessees that elected him last fall. The situation is now reversed. The Democrats to hold the lessees away from the Republicans, are forced to make peace with them. It would be possible for the lessees to elect or defeat a number of candidates for the legislature, of which the Democrats do not wish to lose control.

Members of the state legislature from the Indian Territory side of the state, where there are

no school lands, are in position to stand as protectors of the school lands against unwise legislation. Each member of the legislature from that side of the state knows that he will never be within reach of the lessee vote, and may ignore its influence.

300 School Land Lessees.

Guthrie, Ok., March 19.—300 school land lessees from Lincoln county descended upon the legislature today and tonight were given a hearing before the joint senate and house committees on public lands.

The delegation asked for an act permitting the immediate sale of the school lands. An elaborate speech setting forth the position of the visitors was made by Chas. Brown of Chandler. He was followed by Col. Roy Hoffman and John Tynes.

In the house this afternoon Rev. H. L. Cloud, one of the republican members of the constitutional convention spoke at length in favor of the school lands being sold. He said the lessees had not been given a square deal by the late republican territorial administration; that they had been assessed for damages when they had made real improvements.

Mr. Brown made a hit when he advised the legislature to dispose of the school lands while they could, intimating that if a republican legislature came along there would be little left to dispose of.

Speaker Murray spoke in favor of selling the lands. He corrected the impression that the Indian Territory section of the state was opposed to the propos-

ed sale. He won liberal applause when he declared that the lands should be sold in tracts not exceeding a quarter section to one person. This has been a notable day for the lessees and they made a most favorable impression on both branches of the legislature.

Ada, Oklahoma

Ada Evening News.

OTIS B. WEAVER, Editor and Owner.

Entered as second-class mail matter March 26 1906, at the postoffice at Ada, Oklahoma, under the act of Congress March 3, 1879.

ADAM BECK

There Will Be Something Doing All the Time for Ada.

Otis Weaver returned from Guthrie where he was engaged part of the time conferring with those influential citizens and legislators who are particularly interested in Ada securing a state institution. The three members of the state legislature from Ada while actively engaged in promoting state legislation generally advantageous to all their constituency, are also earnestly active in behalf of Ada for a state institution, which they recognize will be greatly beneficial to the people of this part of the state.

It will evidently be appreciated by nearly all the people of Ada when they are informed that Mr. Adam L. Beck, president of the Oklahoma Portland Cement Company, is established at Guthrie for the week with his family and is devoting all his energies most capably directed in the interest of the institution the city of Ada proposes to secure over every obstacle. Is it not becoming that Ada should feel grateful that the head of the leading institution should thus devote his efforts to the further interest of Ada? Mr. Beck states that should Ada secure the state school, he shall permanently locate his family and construct a home.

Howard Parker, associate editor of the News, and Capt. J. Etter are citizens of Ada in Guthrie, both holding the more responsible positions in the legislature, and these men are lending all their influence in our behalf.

"STRAINED RELATIONS."

The News Holds no Malice.—It Holds to a Principle; no Fanaticism.

An eminent gentleman inquired if the "relations" between the News and the Ada joints were not somewhat "strained?" It may have been so. Unfortunately there was a little difference of opinion, but it is confidently expected that there will not occur, as was predicted by some, surely, unduly alarmed, any serious consequences. The Ada joints are by no means desperadoes and certainly no one will propose that they may not deal in soft drinks and conduct as any other man their place of business so long as their is no breaking of the law or operation of a public nuisance.

While the News has been opposed to the joints, it was because they had become purely joints. Any place of business or amusement whether it be a pool hall, skating rink, any place of amusement or recreation whatever, where the law is not violated and public decency insulted, will not receive any word of criticism from the News. To the best balance of our mind there shall not dwell here bigotry or fanaticism and a forgetfulness of man's inalienable rights and the further consideration that all men have a right to their own opinions and shall not be held amenable for their acts unless they have disturbed the rights of

Counsels Warmly Contest in Luke Jenkins and Lancaster Liquor Cases.

The case of Oklahoma vs. Ollie Lancaster and Luke Jenkins for selling liquor has consumed the entire day in the county court. Judge Ennis, who was elected to try the case in the stead of Judge Terrell is proving himself quite capable and equal to the duties of the office. The defendants take advantage of the law which permits the selection of a special judge upon affidavit made by themselves, holding out that the regular judge was prejudiced against them and too eager for conviction.

The defendants, have a strong counsel employed who are contesting with County Attorney Wimbish every inch of the ground.

ALL FOR ADA.

The enthusiasts in the late city election have about concluded just how it happened and are getting down to business, each doing his part as he understands it in Ada's upbuilding. All the citizens desire to see Ada progress even though there be a difference of opinion as to the best method of accomplishment, all want the attainment of like result. Let the scratches heal and all pull together for Ada.

Several distinguished gentlemen in Guthrie were intensely interested in the late election results in Ada.

Every man who voted "I agree to support the nominee" will vote her straight next Saturday.

He will give an "Evening with Popular Authors." He is a reader, monologist and impersonator of distinguished reputation. The citizens of Ada have not had an opportunity of listening to a greater treat for many a day. The entertainment is for the benefit of the new Methodist parsonage. The price has been made low, so that every man, woman and child in Ada who appreciates a high class entertainment and one that is full of interest may attend. Admission 15c and 25c. There was nothing found in the Brady drug store and only one pint of whisky in Arnold's joint, but in Polk's meat market a grip that contained nineteen pints was found and seized.

A barrel of whisky was found in possession of Tom Thompson, who was hauling it from Francis to Allen. The liquor was claimed by Luke Thompson who was arrested by Marshal E. M. Putnam at Allen and brought to Ada this morning. Each of the Thompsons were placed under bond of \$500 for moving intoxicants from one place in the state to another.

Will Arnold was arrested on three charges of selling liquor.

OKLAHOMA SENATE ADOPTS BILL FOR HEALTH BOARD.

APPROPRIATION FOR DEPARTMENT BUDGET

State University and A. & M. Presidents With one Active Doctor Are to be Membership.

Guthrie, Ok. March 19.—The senate today finally passed the bill by Senator George O. Johnson, establishing a State Board of Health which is to be composed of the president of the State University, the president of the A & M College and an active physician without reference to school of medicine. The physician of the board is also State Superintendent and Health Officer and receives a salary of \$1,500 per year. Members of the board receive \$5 per day and expenses while engaged in health work.

The bill extends the organization to counties, townships and to cities, but in a sense all are subservient to the State organization, and their quarantines must conform to the State Board's. It is made mandatory for inferior health officers to report vital statistics to the State Superintendent. The bill appropriates \$10,000 for salaries and expenses of the Health Department.

The senate recommended for passage the bill by Senators Stewart and Conn establishing ferries and for the regulation of the business. Persons may be licensed to conduct ferries by paying to the counties a fee of \$10.

Final passage was obtained upon the house bill by Mr. Ellis and Mr. Tillotson defining the duties of the State Commissioner of Charities and Corrections. The bill closely follows the Constitution treating of the office in detail. An assistant commissioner of charities is allowed at the rate of \$1,500 per annum.

Senator Stewart of Antlers, secured consent for his bills authorizing the establishment of an industrial school for girls and the establishment of an Eastern Oklahoma Insane asylum, to receive consideration by the senate Monday afternoon at 2 o'clock.

The house spent today considering the proposed fish and game law which contains features of all the bills on those subjects which have been introduced. It adopted the provision making the open season for quail from Dec. 10 to Jan. 10.

Some of the farmer members were in favor of prohibiting the hunting of quail for a number of years. In case they explained quail consume boll weevils and other insects. The killing of pheasants and prairie chickens is prohibited for seven years. All night hunting is prohibited. It is required that each hunter resident or non-resident shall secure license from the county clerk before his hunting is legal. The sale of game is also prohibited and the appearance of game on a hotel bill of fare is taken as prima facie evidence that the proprietor of the place has game for sale.

Among the new bills in the house today were: By Mr. Hendrickson, for the collection of debts or judgments by garnishment proceedings by Mr. Bailey giving the consent of the State for the acquisition by the United States government sites for postoffices, federal buildings and arsenals, by Mr. Abbott authorizing the organization of mutual fire insurance companies.

BABY'S DEATH MAY BRING HIM.

Henry Starr Said to Seek Conference With Oklahoma Sheriff.

Bartlesville, Ok., March 19.—Henry Starr, the former outlaw leader now in hiding in the Osage country west of here, has been making overtures looking to a conference with Washington county officers for the past twenty-four hours. His baby, six months old, died at the Starr home in Dewey, three miles north of here, last night, and word was immediately carried to Starr by one of his friends in this city. Since that time he has been trying to make arrangements with the sheriff of this county, whereby he can go to Dewey and see the body of his dead

child and return unmolested to the Osage country.

Starr's family consisted of his wife and two children, and he was very fond of the baby which died. It is expected that a desire to see his dead child will do more to bring him in than all of the posers now searching for him.

"I am expecting word of an opportunity to meet Starr at almost any minute," admitted Sheriff Jordan, this afternoon. "Friends of his here have communicated with him several times during past twenty-four hours, and I believe I will have a chance to talk to him."

Another officer of the county who has lived in Bartlesville for twenty-five years said tonight that he knew the whereabouts of Starr and that he was trying to arrange for a conference.

"Of course," said the officer, "no attempt will be made at this conference to arrest Starr. We will go unarmed, merely taking Starr's word that no injury will be done us. I think he has begun to realize the seriousness of his difficulty."

Starr's latest statement, according to friends here is that he was not in Tyro on the day the bank was robbed and that he can prove he was twenty-five miles away engaged in a horse trade at the hour the robbery occurred. He has informed his friends who have been in communication with him that he has three reputable citizens who will testify that they saw him within a few minutes of the robbery, fully twenty miles from Tyro.

The conference may not result in the surrender of Starr, but it may be the beginning of overtures which will lead to the restoration of the money in case prosecution is dropped.

City Marshal Brown of Dewey said tonight that Starr would be arrested if he came there to attend the funeral of his baby.

Would Sell School Land

Guthrie, Ok., March 19.—The present state legislature will attempt to dispose of the 20 million dollars' worth of school and other public lands received from the federal government. Although the objection has been offered that there should be no haste in the matter, yet the school land lessees have sent a lobby to Guthrie to prevent delay. The lessees ask that the land be sold immediately. In some parts of the state farmers have organized to oppose the sale of the school lands and are sending petitions to the legislature.

Senator Henry S. Johnston of Perry has introduced in the senate a bill which has the approval of the lessees, while Senator Roy V. Stafford has offered a bill that is not favored by the lessees. The Johnston bill permits the acquisition of the lands by the lessee occupants in fee simple at the end of three years. The Stafford bill contemplates that the title to the school lands shall never pass from the state. The purchaser merely gives to the state a non-maturing note at 4 per cent annually, secured by a first mortgage on the land. The land becomes subject to taxation. His plan is similar to what is known as the Iowa swamp lands act.

The part taken by the school land lessees in politics is looked upon as perhaps the undesirable feature of the controversy over whether or not the lands should be sold. There are about 10,000 lessees, of whom 65 per cent are Democrats or Populists. In every way they control possibly 40,000 votes. The government made a deal with the lessees whereby the lessees voted for Bird S. McGuire for Republican delegate to Congress, and it was the vote of the lessees that elected him last fall. The situation is now reversed. The Democrats to hold the lessees away from the Republicans, are forced to make peace with them. It would be possible for the lessees to elect or defeat a number of candidates for the legislature, of which the Democrats do not wish to lose control.

Members of the state legislature from the Indian Territory, side of the state, where there are

The Word Flour Conveys a Variety of Grades, But When Its

It Means One Grade, and That

ABSOLUTELY THE BEST

no school lands, are in position to stand as protectors of the school lands against unwise legislation. Each member of the legislature from that side of the state knows that he will never be within reach of the lessee vote, and may ignore its influence.

300 School Land Lessees.

Guthrie, Ok., March 19.—300 school land lessees from Lincoln county descended upon the legislature today and tonight were given a hearing before the joint senate and house committees on public lands.

The delegation asked for an act permitting the immediate sale of the school lands. An elaborate speech setting forth the position of the visitors was made by Chas. Brown of Chandler. He was followed by Col. Roy Hoffman and John Tynes. In the house this afternoon Rev. H. L. Cloud, one of the republican members of the constitutional convention spoke at length in favor of the school lands being sold. He said the lessees had not been given a square deal by the late republican territorial administration; that they had been assessed for damages when they had made real improvements.

Mr. Brown made a hit when he advised the legislature to dispose of the school lands while they could, intimating that if a republican legislature came along there would be little left to dispose of.

Speaker Murray spoke in favor of selling the lands. He corrected the impression that the Indian Territory section of the state was opposed to the propos-

ed sale.

He won liberal applause when he declared that the lands should be sold in tracts not exceeding a quarter section to one person.

This has been a notable day for the lessees and they made a most favorable impression on both branches of the legislature.

ADAM DECK

There Will Be Something Doing All the Time for Ada.

Our Weaver returned from Guthrie where he was engaged part of the time conferring with those influential citizens and legislators who are particularly interested in Ada securing a state institution. The three members of the state legislature from Ada while indisputably engaged in promoting state legislation generally advantageous to all their constituency, are also exceedingly active in behalf of Ada for a state institution, which they recognize will be greatly beneficial to the people of this part of the state.

It will evidently be appreciated by nearly all the people of Ada when they are informed that Mr. Adam L. Beck, president of the Oklahoma Portland Cement Company, is established at Guthrie for the week with his family and is devoting all his energies most judiciously directed in the interest of the institution the city of Ada proposes to secure over every obstacle. Is it not becoming that Ada should feel gratified that the head of the leading institution should thus devote his efforts to the further interest of Ada? Mr. Beck states that should Ada secure the state school, he shall permanently locate his family and construct a home.

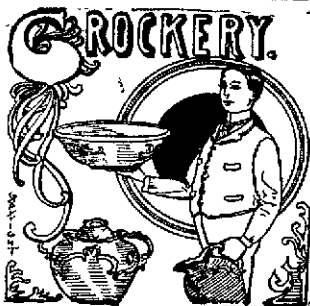

Howard Parker, associate editor of the News, and Capt. J. E. Fetter are citizens of Ada in Guthrie, both holding the more responsible positions in the legislature, and these men are lending all their influence in our behalf.

"STRAINED RELATIONS."

The News Holds no Malice.—It Holds to a Principle; no Fanaticism.

An eminent gentleman inquired if the "relations" between the News and the Ada joints were not somewhat "strained." It may have been so unfortunately there was a little difference of opinion, but it is confidently expected that there will not occur, as was predicted by some surely, unduly alarmed, any serious consequences. The Ada joints at by no means desecrate and certainly no one will propose that they may not deal in soft drinks and conduct as any other man their place of business so long as their is no breaking of the law or operation of a public nuisance.

While the News has been opposed to the joints, it was because they had become purely joints. Any place of business or amusement whether it be a pool hall, skating rink, any place of amusement or recreation whatever, where the law is not violated and public decency insulted, will not receive any word of criticism from the News. To the best balance of our mind there shall not dwell here bigotry or fanaticism and a forgetfulness of man's inalienable rights and the further consideration that all men have a right to their own opinions and shall not be held amenable for their acts unless they have disturbed the rights of

Counsels Warmly Contest In Lake Jenkins and Lancaster Liquor Cases.

The case of Oklahoma vs. Ollie Lancaster and Luke Jenkins for selling liquor has consumed the entire day in the county court. Judge Ennis, who was elected to try the case in the stead of Judge Terrell is proving himself quite capable and equal to the duties of the office. The defendants take advantage of the law which permits the selection of a special judge upon affidavit made by themselves, holding out that the regular judge was prejudiced against them and too eager for conviction.

The defendants, have a strong counsel employed who are contesting with County Attorney Wimbish every inch of the ground.

Let the scratches heal and all pull together for Ada.

The physician of the board is also State Superintendent and Health Officer and receives a salary of \$1500 per year. Members of the board receive \$5 per day and expenses while engaged in health work.

The bill extends the organization to counties, townships and to cities, but in a sense all are subservient to the State organization, and their quarantines must conform to the State Board's. It is made mandatory for inferior health officers to report vital statistics to the State Superintendent. The bill appropriates \$10,000 for salaries and expenses of the Health Department.

The senate recommended for passage the bill by Senators Stewart and Conn establishing ferries and for the regulation of the business. Persons may be licensed to conduct ferries by paying to the counties a fee of \$10.

Final passage was obtained upon the house bill by Mr. Ellis and Mr. Tillotson defining the duties of the State Commissioner of Charities and Corrections. The bill closely follows the Constitution treating of the office in detail. An assistant commissioner of charities is allowed at the rate of \$1500 per annum.

Senator Stewart of Antlers, secured consent for his bills authorizing the establishment of an industrial school for girls and the establishment of an Eastern Oklahoma Insane asylum, to receive consideration by the senate Monday afternoon at 2 o'clock.

The house spent today considering the proposed fish and game law which contains features of all the bills on those subjects which have been introduced. It adopted the provision making the open season for quail from Dec 10 to Jan 10.

Some of the farmer members were in favor of prohibiting the hunting of quail for a number of years. In case they explained quail consume boll weevils and other insects. The killing of pheasants and prairie chickens is prohibited for seven years. All night hunting is prohibited. It is required that each hunter resident or non-resident shall secure license from the county clerk before his hunting is legal. The sale of game is also prohibited and the appearance of game on a hotel bill of fare is taken as prima facie evidence that the proprietor of the place has game for sale.

Among the new bills in the house today were By Mr. Hendrickson, for the collection of debts or judgments by garnishment proceedings by Mr. Barley giving the consent of the State for the acquisition by the United States government sites for postoffices, federal buildings and arsenals, by Mr. Abbott authorizing the organization of mutual fire insurance companies.

BABY'S DEATH MAY BRING HIM.

Henry Starr Said to Seek Conference With Oklahoma Sheriff.

Bartlesville, Ok, March 19.—Henry Starr, the former outlaw leader now in hiding in the Osage country west of here, has been making overtures looking to a conference with Washington county officers for the past twenty-four hours. His baby, six months old, died at the Starr home in Dewey, three miles north of here, last night, and word was immediately carried to Starr by one of his friends in this city. Since that time he has been trying to make arrangements with the sheriff of this county, whereby he can go to Dewey and see the body of his dead

child and return unmolested to the Osage country.

Starr's family consisted of his wife and two children, and he was very fond of the baby which died. It is expected that a desire to see his dead child will do more to bring him in than all of the possses now searching for him.

"I am expecting word of an opportunity to meet Starr at almost any minute," admitted Sheriff Jordan, this afternoon. "Friends of his here have communicated with him several times during past twenty-four hours, and I believe I will have a chance to talk to him."

Another officer of the county who has lived in Bartlesville for twenty-five years said tonight that he knew the whereabouts of Starr and that he was trying to arrange for a conference.

"Of course," said the officer, "no attempt will be made at this conference to arrest Starr. We will go unarmed, merely taking Starr's word that no injury will be done us. I think he has begun to realize the seriousness of his difficulty."

Starr's latest statement, according to friends here is that he was not in Tyro on the day the bank was robbed and that he can prove he was twenty-five miles away engaged in a horse trade at the hour the robbery occurred. He has informed his friends who have been in communication with him that he has three reputable citizens who will testify that they saw him within a few minutes of the robbery, fully twenty miles from Tyro.

The conference may not result in the surrender of Starr, but it may be the beginning of overtures which will lead to the restoration of the money in case prosecution is dropped.

City Marshal Brown of Dewey said tonight that Starr would be arrested if he came there to attend the funeral of his baby.

Would Sell School Land

Guthrie, Ok.—March 19.—The present state legislature will attempt to dispose of the 20 million dollars' worth of school and other public lands received from the federal government. Although the objection has been offered that there should be no haste in the matter, yet the school land lessees have sent a lobby to Guthrie to prevent delay. The lessees ask that the land be sold immediately. In some parts of the state farmers have organized to oppose the sale of the school lands and are sending petitions to the legislature.

Senator Henry S. Johnston of Perry has introduced in the senate a bill which has the approval of the lessees, while Senator Roy V. Stafford has offered a bill that is not favored by the lessees. The Johnston bill permits the acquisition of the lands by the lessee occupants in fee simple at the end of three years. The Stafford bill contemplates that the title to the school lands shall never pass from the state. The purchaser merely gives to the state a non-maturing note at 4 per cent annually, secured by a first mortgage on the land. The land becomes subject to taxation. His plan is similar to what is known as the Iowa swamp lands act.

The part taken by the school land lessees in politics is looked upon as perhaps the undesirable feature of the controversy over whether or not the lands should be sold. There are about 10,000 lessees, of whom 65 per cent are Democrats or Populists. In every way they control possibly 40,000 votes. The government made a deal with the lessees whereby the lessees voted for Bird S. McGuire for Republican delegate to Congress, and it was the vote of the lessees that elected him last fall. The situation is now reversed. The Democrats to hold the lessees away from the Republicans, are forced to make peace with them. It would be possible for the lessees to elect or defeat a number of candidates for the legislature, of which the Democrats do not wish to lose control.

Members of the state legislature from the Indian Territory, side of the state, where there are

no school lands, are in position to stand as protectors of the school lands against unwise legislation. Each member of the legislature from that side of the state knows that he will never be within reach of the lessee vote, and may ignore its influence.

300 School Land Lessees.

Guthrie, Ok., March 19.—300 school land lessees from Lincoln county descended upon the legislature today and tonight were given a hearing before the joint senate and house committees on public lands.

The delegation asked for an act permitting the immediate sale of the school lands. An elaborate speech setting forth the position of the visitors was made by Chas. Brown of Chandler. He was followed by Col. Roy Hoffman and John Tynes.

In the house this afternoon Rev. H. L. Cloud, one of the republican members of the constitutional convention spoke at length in favor of the school lands being sold. He said the lessees had not been given a square deal by the late republican territorial administration; that they had been assessed for damages when they had made real improvements.

Mr. Brown made a hit when he advised the legislature to dispose of the school lands while they could, intimating that if a republican legislature came along there would be little left to dispose of.

Speaker Murray spoke in favor of selling the lands. He corrected the impression that the Indian Territory section of the state was opposed to the propos-

ed sale.

He won liberal applause when he declared that the lands should be sold in tracts not exceeding a quarter section to one person.

This has been a notable day for the lessees and they made a most favorable impression on both branches of the legislature.

Ada Evening News.

Wm B. WEAVER, Editor and Owner.

Entered as second-class mail matter March 28, 1906, at the postoffice at Ada, Oklahoma, under the act of Congress March 3, 1879.

ADAM BECK

There Will Be Something Doing All the Time for Ada.

Mr. Weaver returned from Guthrie where he was engaged part of the time conferring with those influential citizens and legislators who are particularly interested in Ada securing a state institution. The three members of the state legislature from Ada while actively engaged in promoting state legislation generally advantageous to all their constituency, are also earnestly active in behalf of Ada for a state institution, which they recognize will be greatly beneficial to the people of this part of the state.

It will evidently be appreciated by nearly all the people of Ada when they are informed that Mr. Adam L. Beck, president of the Oklahoma Portland Cement Company, is established at Guthrie for the week with his family and is devoting all his energies most unselfishly directed in the interest of the institution the city of Ada proposes to secure over every obstacle. Is it not becoming that Ada should feel grateful that the head of the leading institution should thus devote his efforts to the further interest of Ada? Mr. Beck states that should Ada secure the state school, he shall permanently locate his family and construct a home.

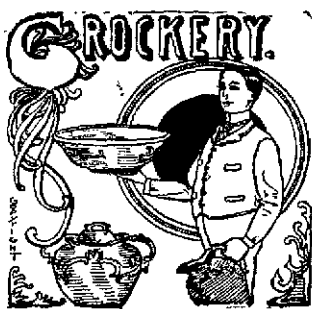

Howard Parker, associate editor of the News, and Capt. J. Elter are citizens of Ada in Guthrie, both holding the more responsible positions in the legislature, and these men are lending all their influence in our behalf.

"STRAINED RELATIONS."

The News Holds no Malice.—It Holds to a Principle; no Fanaticism.

An eminent gentleman inquired if the "relations" between the News and the Ada joints were not somewhat "strained." It may have been so (unfortunately there was a little difference of opinion, but it is confidently expected that there will not occur, as was predicted by some surely, unduly alarmed, any serious consequences. The Ada joints are by no means desperate and certainly no one will propose that they may not deal in soft drinks and conduct as any other man their place of business so long as their is no breaking of the law or operation of a public nuisance.

While the News has been opposed to the joints, it was because they had become purely joints. Any place of business or amusement whether it be a pool hall, skating rink, any place of amusement or recreation whatever, where the law is not violated and public decency insulted, will not receive any word of criticism from the News. To the best balance of our mind there shall not dwell here bigotry or fanaticism and a forgetfulness of man's inalienable rights and the further consideration that all men have a right to their own opinions and shall not be held amenable for their acts until they have disturbed the rights of

Counsels Warmly Contest in Luke Jenkins and Lancaster Liquor Cases.

The case of Oklahoma vs. Ollie Lancaster and Luke Jenkins for selling liquor has consumed the entire day in the county court. Judge Ennis, who was elected to try the case in the stead of Judge Terrell is proving himself quite capable and equal to the duties of the office. The defendants take advantage of the law which permits the selection of a special judge upon affidavit made by themselves, holding out that the regular judge was prejudiced against them and too eager for conviction.

The defendants, have a strong counsel employed who are contesting with County Attorney Wimbley every inch of the ground.

ALL FOR ADA.

The enthusiasts in the late city election have about concluded just how it happened and are getting down to business, each doing his part as he understands it in Ada's upbuilding. All the citizens desire to see Ada progress even though there be a difference of opinion as to the best method of accomplishment, all want the attainment of like result. Let the scratches heal and all pull together for Ada.

Several distinguished gentlemen in Guthrie were intensely interested in the late election results in Ada.
